

2.0 SUBMITTAL FORMS AND FEE SCHEDULES

All plan check submittals will be reviewed for completeness within three (3) working days of submittal. A complete submittal shall include all plans, *reports and supporting documents applicable to the project along with all required city fees. Incomplete submittals will not be processed until a complete submittal is received. All re-submittals of plans, maps, and reports must include the previous check prints as well as the required submittals.

All plan check submittals shall be submitted to the Engineering Department, 27215 Base Line, Highland, CA 92346.

NOTE: Landscape plans shall be submitted to the Planning Division.

* All reports that are required to be included with the first plan check as reference material, such as Soils/Geological Investigations, shall be “comb” bound, (or similar), with front and back covers.

Bound copies of reports that are required for review and approval, such as Hydrology/Drainage Studies, Traffic Studies, etc., must be submitted for review with the exception of Water Quality Management Plans which must be in 3-ring binders.

(Note: Fees are subject to change periodically; it shall be the Developer’s responsibility to ensure that he or she is using the latest edition of the Engineering Department Policies, Procedures and Standards Handbook and Fee Schedules prior to submittals.)

FINAL MAP SUBMITTAL - TRACT AND PARCEL MAPS

- Three (3) complete sets of maps
- One (1) preliminary title report updated in past 90 days
- One (1) set traverse calculations and closures (inverse calculations not acceptable for plan check review)
- One (1) set of reference materials including surrounding maps, deeds, records of survey and centerline ties
- Two (2) complete sets of Composite Development Plan (must be submitted by second check)
- Fees include plan check, microfilming and GIS per latest fee schedule
- One (1) completed set of plan and/or profile checklists

GRADING/IMPROVEMENT PLAN SUBMITTAL

- One (1) signed and stamped Engineer's Estimate of Precise Grading (Commercial Projects), street and storm drain improvement costs
- Two (2) sets of street and/or storm drain improvement plans
- Five (5) sets of rough grading plans
- Five (5) sets of precise grading plans
- Two (2) sets of erosion control plans
- One (1) set of water and sewer plans (for reference only)
- Two (2) sets of cross section minimum 50-foot stations where widening existing street
- One (1) set reference street plans 300 feet either direction on existing street connections
- Two (2) sets of hydraulics, drainage study/hydrology and or traffic study reports (where required)
- One (1) completed grading plan checklist
- Three (3) sets of Final WQMP Reports
- Fees include plan check, professional report review, microfilming and GIS per latest fee schedule
